

Public Notice on a Letter of Intent to Participate in Tier 2 of Green Tier

Pursuant to Section 299.83, Wis. Stats., the Department of Natural Resources (DNR) hereby gives notice that DNR has received a letter of intent to participate in Tier 2 of the Green Tier program from MEGTEC Systems, 830 Prosper Road, PO Box 5030, DePere, WI 54115. MEGTEC Systems is a manufacturer of equipment for the printing industry, and makes print dryers and air pollution control equipment. Under Green Tier, MEGTEC Systems will continue and expand its superior environmental performance by working with its supply chain on environmentally preferable products and practices, by encouraging those businesses in their supply chain to develop their own Environmental Management System and by sharing environmental improvement results with others. MEGTEC Systems will also minimize the creation of hazardous waste, with the goal of becoming a conditionally exempt small quantity generator. MEGTEC is not requesting flexibility from DNR.

Opportunity for interested persons to participate in negotiations

Interested persons may request authorization to participate in any negotiations concerning a Green Tier participation contract with MEGTEC Systems. To do so, send Tom Eggert a request and a description of your interests in the issues raised by the letter of intent, within 30 days following the date of publication of this notice.

(fx) (608)267-9305

Opportunity for public to request a public meeting

Also within the 30-day comment period, individuals may request a public informational meeting concerning MEGTEC System's letter of intent by submitting a written request to the DNR contact. If DNR determines there is significant interest in MEGTEC System's letter of intent, DNR will hold a public informational meeting.

How DNR will make final decisions

DNR will determine whether MEGTEC Systems has satisfied all of the eligibility requirements in sec. 299.83(5), Wis. Stats. If all eligibility requirements are met, negotiations between DNR and MEGTEC Systems concerning a Tier 2 participation contract will begin 30 days after this notice is published and after a public meeting (if a public meeting is held), and will conclude within 12 months of beginning, unless DNR and the applicant agree to an extension. Then DNR will provide an additional opportunity for public comments if negotiations result in a proposed participation contract. The DNR will use the comments in deciding whether or not to enter into a participation contract with MEGTEC Systems.

DNR will determine whether to authorize the participation of an interested person in negotiations of MEGTEC System's Green Tier participation contract based on whether the person has demonstrated sufficient interest in the issues raised in MEGTEC System's letter of intent.

Additional information available

Information on the Green Tier program can be accessed via the Internet at:
